Gecko Villa

The property

Gecko Villa stands on a large private estate, amongst verdant rice paddies & plantations.

We raise our own floppy-eared cattle, and grow a large variety of fruit and herbs, including mango, banana, passion fruit, chilies, papaya, lemongrass and more...

- Privacy & tranquility
- Style & comfort off the beaten path
- Delicious Thai food
 - Private swimming pool
 - Fully serviced

A Unique Experience

Gecko Villa is neither a hotel nor a standard villa rental. It offers the space, facilities & privacy of a private villa, yet combines these with traditional Thai hospitality & service.

Your holiday is fully catered – so there is no need to cook and, just as importantly, there is no washing up to do! We will prepare delicious, zingy Thai meals for you daily, and you are always free to help yourself to a drink, freshly brewed coffee or whatever from the fully stocked kitchens. We will also be delighted to show you how to make some local dishes, that you can the recreate at home.

We live in a village a few kilometers away and will be delighted to show you the area with its typical rural villages, forest temples, markets and schools, and places of natural beauty. Alternatively, should you wish to simply laze under the sun by the pool, simply enjoy the privacy of the villa in peace!

Make a Difference: Responsible Travel

Gecko Villa was entirely designed, constructed and finished using indigenous skills and labour, and is operated by villagers who maximize the use of local produce and encourage the preservation of age-old traditions.

Your holiday at Gecko Villa directly contributes to the creation of local employment, and helps reverse the historical migration of Isaan farmers to the cities to find menial labour. All revenues remain in the local community. Please visit our site for more details on how we contribute to our community.
